

## SECUREWAIS UK Ltd.

At SecureWais we provide bespoke Integrated Security Solutions. This means providing the best capability and technology in such critical areas as: Entrance & Access Control, Intruder Alarms, Remote Monitoring, CCTV and Biometric Systems.

**Vacancy: Junior Installation Engineer.**

**Start Date: Immediate**

**Salary: £ late teens / early 20's [ commensurate with experience ]**

**Benefits: Career opportunities, 20 days annual leave, family environment.**

We have an exciting vacancy, created due to expansion and additional new client projects, for a Junior Installation Engineer.

The ideal candidate will have a minimum of 2 years of Installation and Commissioning experience in delivering CCTV, Access Control and Intruder Alarm projects from start to completion.

In addition, the candidate shall have either a CSCS or ECS card, be proficient in both spoken and written English, and have recent relevant experience.

Our Clients are all London City and / or West End based, as such we do not use vehicles.

If you feel that you meet our criteria, and would like to find a home where you can build a long-term career, please send your CV to: [royfreedman@securewais.com](mailto:royfreedman@securewais.com)
