

SECUREWAIS UK Ltd.

At SecureWais we provide bespoke Integrated Security Solutions. This means providing the best capability and technology in such critical areas as: Entrance & Access Control, Intruder Alarms, Remote Monitoring, CCTV and Biometric Systems.

Vacancy: Senior Installation Engineer.

Start Date: Immediate

Salary: £ late 20's / early 30's [commensurate with experience]

Benefits: Career opportunities, 20 days annual leave, family environment.

We have an exciting vacancy, created due to expansion and additional new client projects, for a Senior Installation Engineer.

The ideal candidate will have a minimum of 6 years of Installation and Commissioning experience in delivering CCTV, Access Control and Intruder Alarm projects from start to completion.

In addition, the candidate shall have either a CSCS or ECS card, be proficient in both spoken and written English, and have recent relevant experience.

Our Clients are all London City and / or West End based, as such we do not use vehicles.

If you feel that you meet our criteria, and would like to find a home where you can build a long-term career, please send your CV to: royfreedman@securewais.com
